

T.I. Property Service **Update**

News for T.I. Property Service Customers Vol. 7 No. 2 / Spring 2004

Monthly Features

Nothing Unusual.....

Upon review of previous newsletters, 17 in all, I noticed that each spring edition was making a reference to the wet spring weather and April snowfall. Well, this year is no exception. A few mild weeks in March allowed for a gentle thaw of snow and river ice, producing very little shoreline or dock damage. As today was the day to "spring ahead", mother nature dealt us a nasty blow as in years past. This will only help us appreciate the good days that lie ahead.

Expanded Service

TIPS employees have recently attended Northern Universities seminars on landscape lighting, pond construction and maintenance, as well as brick paver and retaining wall construction. This will give us another opportunity to enhance your landscape and complement your existing outside aesthetics. TIPS will have samples in stock, along with brochures and many new design ideas.

Yes, TIPS does windows

Without question, TIPS offers the finest quality window cleaning service in the north country. In addition to the average home or office window washing, we have the ability

to reach your skylights, trapezoidal windows, or any other architecturally challenging window construction. It's best to schedule your window cleaning service after we spray for spiders. Please fill out work order or call for an appointment. We will provide you with a free estimate.

Lawn Care

Please don't be fooled when buying your lawn care products. Many popular brands appear to be cheaper at first only to be much more expensive in the long run. Upon inspection you may notice they only cover 5000 sq. ft., resulting in purchasing multiple bags to do the same job as one from TIPS. We also carry a line of commercial grade fertilizers that offer a slow release of nutrients, giving your lawn a feeding throughout a longer time period. As an alternative, a line of organic fertilizers is also available.

Work Orders

For those of you who may not have Internet access, I have enclosed a spring work order for your convenience. Others, please visit our web site and e-mail back to us.

Reminder: Arbor Day is April 30, and for any occasion a tree can make a lovely gift.... for graduation, weddings, anniversaries, birthdays, etc.
